

Sarah Constructions Pty Ltd (Sarah) is a commercial building company with a family history of over 50 years in construction. Sarah's offer a wide range of integrated construction, project management, design and construct, lump sum contracts and refurbishment services to our clients.

Our vision is to continuously improve the quality of our services and projects to meet or exceed our client's needs as well as statutory and regulatory requirements.

The implementation of the company quality management system will comply with ISO 9001:2008 as well as formalise company quality procedures which were in place prior to quality management standards within the industry.

Our principles rely on the following:

- We aim for total quality in our company activities to achieve client satisfaction and loyalty.
- The services we provide and the projects we complete form the standard by which we are judged.
- We maintain a set of key quality objectives to ensure continuous improvement of company systems.
- To continue our ongoing success we maintain training and education programs for our staff and enhance our performance by reviewing, updating and refining our company policies and procedures.
- The company maintains mutually beneficial relations with our subcontractors, suppliers and other business associates including the community at large by acting fair, reasonable and honest in our dealings.
- A permanent management, administrative and supervisory team of dedicated professionals combine to achieve our goals.
- The quality policy is communicated to all company personnel and relevant stakeholders.
- The quality policy will be reviewed for continuing suitability.

*'Quality is not something else we manage, rather it is the way we manage'*
